### PERSONAL BIOGRAPHY:

“My careers have been varied throughout the course of my life. Although I was born in North Vancouver, I spent my growing-up years in Edmonton, AB. I returned to Vancouver in 1980 where I had a variety of careers, from the airline industry as a reservations agent to the insurance business for 10 years. I was at a crossroads in my life and found myself out of work and looking for something that I could transfer my skills and love of working with a variety of people to. A friend of mine, who was in the Costume Department, suggested that I work in the film industry because it would fit my personality. I love the freedom that it offers, the ability to choose the projects that I work on, the flexibility to choose when I work, and of course the best part, working with and meeting new people. The intimacy of ACFC West allows you to quickly feel a part of a great community. I look forward to meeting those that I have not yet worked with and working again with all of the great people that I have worked with in the past.

“My friend was right!” 📺
