Non-Security Business Entities

Dear Operator/Owner:

RE: Extension to September 1, 2009, for the licensing of In-house security guards

In response to recent requests, the implementation date for employees of in-house security entities, to be licensed under the Security Services Act, has been extended to September 1, 2009.

This extension will allow opportunity for your respective internal trainings to be adjusted to meet the equivalency requirements of the Basic Security Training (BST) and then deliver the training or, conversely, to have your employees complete the BST. I appreciate that you are committed to meeting the spirit and intent of the legislation and are making every effort to come into compliance as quickly as possible.

Either myself or Deputy Registrar Bill Carver are available (250-356-1504 or 250-356-1509 respectively) if you have any questions or concerns regarding this extension.

Yours truly,

Sam MacLeod  
Registrar  
Security Services Act
